VOLUME CONTENTS

Volume 48 (1987)

PHYSIOLOGY AND BIOCHEMISTRY

Redox reactions of plasma membranes isolated from soybean hypocotyls by phase partition
by A.S. Sandelius, R. Barr, F.L. Crane and D.J. Morré (West Lafayette, IN) . . . . . 1—10

Effect of substituent groups on the glycosyl conjugation of xenobiotic phenols by cultured cells of *Gardenia jasminoides*
by J. Mizukami, A. Hirano and H. Ohashi (Nagasaki-shi, Japan) . . . . . 11—15

Thylakoid acid phosphatase and protein phosphatase activities in wheat (*Triticum aestivum* L.)
by C.M. Yang, S.J. Danko and J.P. Markwell (Lincoln, NE) . . . . . 17—22

Changes in cell wall composition of embryonic axes of germinating *Cicer arietinum* L. seeds. Effects of abscisic acid and temperature
by E. Labrador, D. Rodriguez and G. Nicolas (Salamanca, Spain) . . . . . 23—30

Effect of calcium ions on phototactic orientation of individual *Cryptomonas* cells
by H. Kaneda and M. Furuya (Tokyo, Japan) . . . . . 31—35

The effect of deuterium oxide on light-sensitive *Paulownia tomentosa* seed germination
by D. Grubišić and R. Konjević (Novembra, Yugoslavia) . . . . . 37—42

GENETICS AND MOLECULAR BIOLOGY

Synthesis and assembly of thylakoid membrane proteins in isolated pea chloroplasts: the chlorophyll *a*-proteins of the photosystem II reaction center
by W. Hachtel (Bonn, F.R.G.) . . . . . 43—48

CELL AND TISSUE STUDIES IN VITRO

Isolated microspore derived plant formation via embryogenesis in *Triticum aestivum* L.
by S.K. Datta and G. Wenzel (Gruenbach, F.R.G.) . . . . . 49—54

Transport of 2-aminoisobutyric acid in mesophyll protoplasts of *Pisum sativum* L. Application of silicone oil layer centrifugation
by A.C. Borstlap, A.A. Kuyper-Vos and J. Schuurmans (Utrecht, The Netherlands) . . . . . 55—62

PHYSIOLOGY AND BIOCHEMISTRY

Solubilization, affinity chromatography and Ca^{2+}/polyamine activation of the plasma membrane-located 1,3-β-D-glucan synthase
by H. Kauss and W. Jeblick (Kaiserslautern, F.R.G.) . . . . . 63—69

Tomato lectin is located predominantly in the locular fluid of ripe tomatoes
by R.K. Merkle and R.D. Cummings (Athens, GA) . . . . . 71—78

Distribution of lectin during the life cycle of *Phaseolus vulgaris* L.
by M.C. Castresana, M.T. Serra, J.F. Rodriguez and G. Tejerina (Madrid, Spain) . . . . . 79—88

GENETICS OF MOLECULAR BIOLOGY

Transformation of cowpea *Vigna unguiculata* with a full-length DNA copy of cowpea mosaic virus M-RNA
by J.A. Garcia, J. Hille, P. Vos and R. Goldbach (Wageningen, The Netherlands) . . . . . 89—98

CELL AND TISSUE STUDIES IN VITRO

Modulation and direction of the electrofusion response in plant protoplasts
by M.J. Tempelaar, A. Duyst, S.y. de Vlas, G. Krol, G. Symmonds and M.G.K. Jones (Haren, The Netherlands and Herts, U.K.) . . . . . 99—105

Plant regeneration from cotyledon protoplasts of wild *Medicago* species
by D.M. Gilmour, M.R. Davey and E.C. Cocking (Nottingham, U.K.) . . . . . 107—112

Effect of carbohydrate source on alfalfa somatic embryogenesis
by S.G. Strickland, J.W. Nichol, C.M. McCall and D.A. Stuart (Davis, CA) . . . . . 113—121

Production of somatic hybrid plants, 'Brassicomoricandia', through protoplast fusion between *Moricandia arvensis* and *Brassica oleracea*
by K. Toriyama, K. Hinata and T. Kameya (Sendai, Japan) . . . . . 123—128
Plant regeneration from cotyledon protoplasts of *Glycine canescens* and *G. clandestina*
by N. Hammatt, H-I. Kim, M.R. Davey, R.S. Nelson and E.C. Cocking (Nottingham and Sittingbourne, U.K. and Suweon, Korea) . . . . . 129—135
Perpetuation of the self-incompatible rare species *Swainsona laxa* R. Br by pollination in vitro and in situ
by A.M. Taji and R.R. Williams (Athelstone, South Australia) . . . . . 137—140

ANNOUNCEMENT 141

PHYSIOLOGY AND BIOCHEMISTRY
Rapid screening for heat tolerance in *Phaseolus* species using the photoacoustic technique
by M. Havaux, O. Canaani and S. Malkin (Rehovot, Israel) . . . . . 143—149
Preparation of coupled mitochondria from *Euglena* by sonication
by R. Moreno-Sánchez and J. Carlos Raya (México, Mexico) . . . . . 151—157
Drechslerol-A, a new phytotoxic metabolite produced by *Drechslera maydis*, a strain from *Costus speciosus*
by R.S. Shukla, P.K. Agrawal and A. Husain (Lucknow, India) . . . . . 159—163

GENETICS AND MOLECULAR BIOLOGY
Transfer of the maize transposable element *Mu1* into *Arabidopsis thaliana*
by H. Zhang and C.R. Somerville (East Lansing, MI) . . . . . 165—173

CELL AND TISSUE STUDIES IN VITRO
Effect of some amino acids and complex organic nitrogenous substances on vegetative growth and gametangial formation in the female clone of *Riccia frostii* Aust.
by B.D. Vashistha and R.N. Chopra (Delhi, India) . . . . . 175—180
Analysis of proteins from embryogenic and non-embryogenic rice *(Oryza sativa* L.) calli
by L.-J. Chen and D.S. Luthe (Mississippi, MS) . . . . . 181—188
Energy and osmotic requirement for high frequency regeneration of rice plants from long-term cultures
by P.B. Kavi Kishor (Warangal, India) . . . . . 189—194
The toxicity of monoterpenes to plant cell cultures
by J.T. Brown, P.K. Hegarty and B.V. Charlwood (London, U.K.) . . . . . 195—201
In vivo fluorescence labeling of plasma membrane from plant tissue and cells
by O. Spring and W. Krauβ (Tübingen, F.R.G.) . . . . . 203—213
Erratum 215
Subject Index Volume 48 . . . . . 217—219
Author Index Volume 48 221
Contents Volume 48 . . . . . 223—224
